Directions for Use

Foliar Treatment of European Frogbit

- It is a violation of federal law to use this product in a manner inconsistent with its labeling.
- This labeling must be in the possession of the user at the time of pesticide application.
- Follow all applicable directions, restrictions and precautions on the product label.
- Always use a surfactant for foliar applications of emergent and floating weeds.
- Foliar applications of Clearcast to control European frogbit may be made as a broadcast spray or as a spot spray with a percent spray solution ranging from 0.25% to 5% Clearcast by volume.
- Control will be reduced if spray is washed off foliage by wave action.
- Do not apply more than 1 gallon of Clearcast (12.1% equivalent salt of imazamox) per surface area per year.
